

Tailfin AeroPack Range Specifications

AeroPack
ALLOY
(integrated bag + alloy rack)

AeroPack
CARBON
(integrated bag + carbon rack)

AeroPack
TRUNK
(bag only - for original T1 rack)

The AeroPack Carbon

- The fastest, lightest luggage system in the Tailfin lineup
- Weight: 600g
- Tyre clearance: Fits any 700c tyre, or up to a 27.5x3.0" or 29x2.5" MTB tyre (most bikes other than fat bikes)
- Maximum recommended load capacity: 12kgs
- Specially discounted Kickstarter price: £269 / \$349 / €299

The AeroPack Alloy

- Offers the same incredible performance advantages and seamless user-experience of the AeroPack Carbon but at a more accessible price point
- Weight: 780g
- Tyre compatibility: Any 700c tyre, or up to 26x4.8" / 27.5x4.4" or 29x4.4" MTB (almost any bike, including fat bikes)
- Maximum recommended load capacity: 12kgs
- Specially discounted Kickstarter price: £219 / \$279 / €239

The AeroPack Trunk + T1 Rack

- Works in conjunction with the Tailfin T1 Carbon Rack - either add extra capacity to your double-pannier set-up or use it on its own for carrying light loads at speed
- Weight: AeroPack Trunk = 450g, T1 Carbon Rack = 350g (Total = 800g)
- Tyre compatibility: 700x40c or 27.5x2.1" (any road and gravel bike)
- Maximum recommended load capacity: 9kgs
- Specially discounted Kickstarter price: £119 / \$149 / €129 (for Aeropack Trunk only)
